## Figure 10 Adjusting Range of Voltage Divider

| Range of Voltage Divider |                               |          |
|--------------------------|-------------------------------|----------|
| No                       | Range of Nominal Pack Voltage | R4 Value |
| 1                        | 2.4V to 4.8V                  | 1.0K     |
| 2                        | 4.8V to 9.6V                  | 1.8K     |
| 3                        | 7.2V to 14.4V                 | 3.3K     |
| 4                        | 9.6V to 16.8V                 | 4.7K     |
| 4                        | 18V to 24V                    | 5.6K     |
